Ocean Shipping Container Availability Report

A weekly publication of the Transportation Services Division, AMS
United States Department of Agriculture

www.ams.usda.gov/oscar

Weekly Container Overview

- Over the next 3 weeks, the Ports of Los Angeles/Long Beach, New York, Savannah, and Norfolk are expected to have the most available containers among the port locations reported. Availability for all equipment types is expected to increase at Los Angeles/Long Beach, New York, and Savannah during the next 3 weeks. Availability in Norfolk is also expected to increase, except for 40ft refrigerated containers.
- Among the inland locations reported, Dallas, Chicago, and Memphis are expected to have the most containers available over the next 3 weeks. Availability is estimated to increase each week for all container types except for 20ft refrigerated equipment in Chicago and Memphis.
- The number of refrigerated containers available over the next three weeks in Minneapolis and Oakland is estimated to be negative—the greatest deficit from the participating carriers is expected in Oakland. However, available 20ft refrigerated containers are expected to increase in Seattle and Tacoma, and both 20ft and 40ft refrigerated containers in Houston.
- Over the next 3 weeks, most locations reported are estimated to have increasing availability of dry containers—particularly those locations of interest to containerized grain exporters as harvest approaches, such as Chicago, Minneapolis, Columbus, Cincinnati, and Kansas City as well as the ports of Los Angeles/Long Beach and Norfolk. In particular, 20ft dry containers in Columbus, Kansas City, New York, and Memphis are expected to increase significantly over the next 3 weeks.
- Overall decreases are estimated for container availability in New Orleans and Oakland over the next 3 weeks. The largest decreases are estimated for 40ft standard and high-cube containers in Houston, New Orleans, and Oakland, and for 40ft high-cube and refrigerated containers in Tacoma.

Understanding this Report

The weekly Ocean Shipping Container Availability Report (OCSAR) provides a snapshot of container availability for westbound transpacific trade lanes at select intermodal locations around the country. The data presented in this report are gathered from the 9 member carriers in the Westbound Transpacific Stabilization Agreement (WTSA). The WTSA carriers include COSCO, Evergreen, Hanjin Shipping, Hapag Lloyd, Yang Ming Transport Corporation, OOCL, NYK Line, K Line, and Hyundai Merchant Marine.

- The data are estimates of container availability per week by the participating carriers. The carriers determine container availability by comparing current supplies at each of the 18 intermodal locations with the demand for these containers based on up-to-date bookings or reservation information in the westbound transpacific trade lane.
- Each week, participating carriers report the estimated number of containers available for the current week (W1) as well as estimates for the subsequent 2 weeks (W2 and W3).
- Maps on pages 3–5 offer a national overview of weekly container availability, as well as an average of availability over the past 6 months. The weekly national data are derived from the sum of the individual carrier responses at each intermodal location.
- Individual carrier responses are presented by location on pages 6–23 and have been sorted from largest to smallest. To maintain carrier confidentiality, specific carrier identification is not provided.
- Carrier responses showing negative numbers, such as -29, should be interpreted as meaning that 29 containers are needed by shippers but the carrier is not able to supply them. A positive number, such as 64, would mean 64 containers are available that are not demanded. An indication of 0 means the carriers have the exact amount of containers needed based on current supply and demand estimates.
- In addition to the weekly container availability data, the participating carriers provide average weekly throughput data for the past 6 months. These data help readers understand the aggregate flow of containers that have moved through the 18 select locations by the 10 original participating carriers over the previous 6 months. These data will only be updated every 6 months.
- Availability levels are subject to change, and may be affected by delays in return of equipment to carriers by shippers or consignees, and by free time restrictions imposed by railroads. Due to the dynamic nature of the container industry, carriers cannot be held responsible for the level of availability at the time of inquiry.
- Data presented in the report do not imply availability of chassis.
- Container availability estimates represent availability for all export cargo, not just agricultural products.
- USDA collects these data on a voluntary basis and cannot be held responsible for the status of container availability when a reader makes inquiry with an ocean carrier. USDA relies on the participating ocean carriers to ensure the data is accurate.
- Terminology:

20ft Dry Container (20ft): A standard shipping container that is 20 feet long.

40ft Dry Container (40ft): A standard shipping container that is 40 feet long.

40ft High-Cube (HC): A shipping container which is 40 feet long and 9 feet, 6 inches tall (1 foot taller than a standard 40ft dry container).

40ft reefer: A refrigerated shipping container which is 40 feet long.

20ft reefer: A refrigerated shipping container which is 20 feet long.

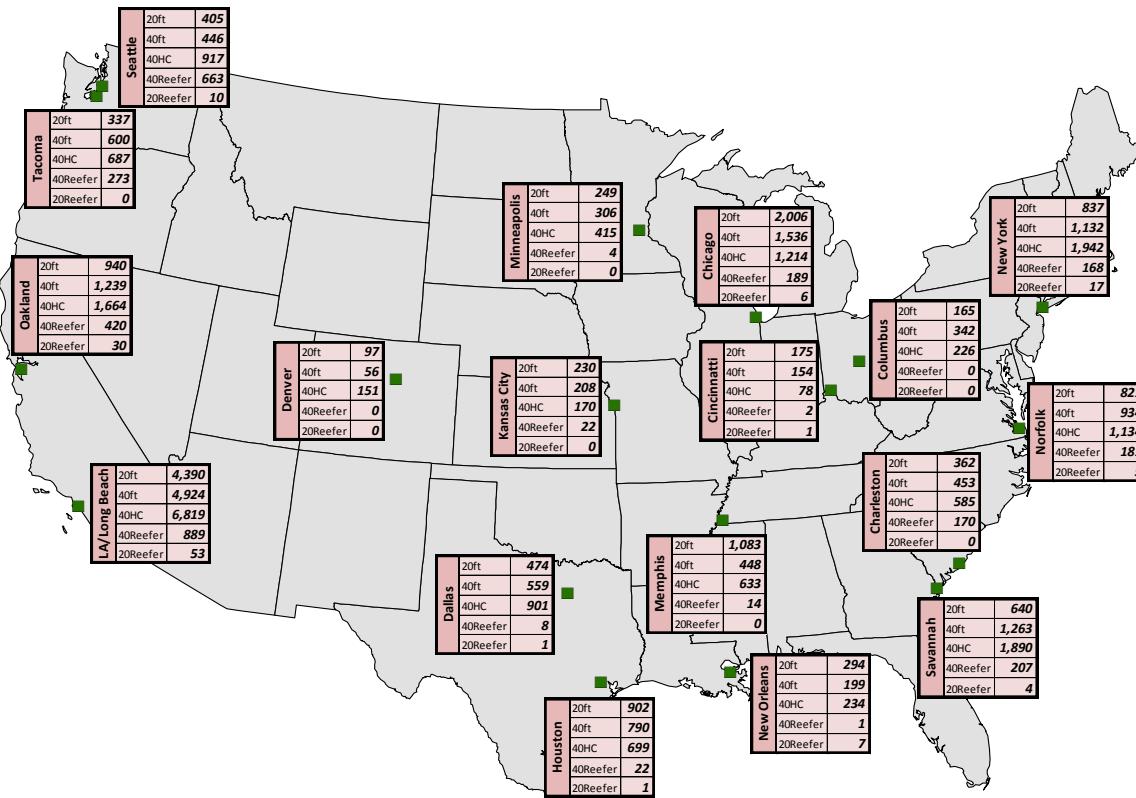

Chassis: A wheeled frame to which a shipping container can be locked for storage or movement. (Plural chassis)

Six-Month Snapshot of Average Weekly Throughput		
November 2011-April 2012		
Container Types	Average Total Weekly Throughput*	Range of Individual Carrier Responses
20ft	337	1...300
40ft	600	0...500
40ft High Cubes	687	5...600
40ft Refrigerated	273	0...200
20ft Refrigerated	0	0...0

*Data reflect the sum of the individual carriers' average weekly throughput over a 6-month timeframe

The U.S. Department of Agriculture (USDA) prohibits discrimination in all of its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex (including gender identity and expression), marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
